### SECTION [C]

26 A Read the given passage and answer the questions that follows the passage 4

The 'demographic dividend' results from an increase in the proportion of workers relative to non-workers in the population. In terms of age, the working population is roughly that between 15 and 64 years of age? This working age group must support itself as well as those outside this age group (i.e., children and elderly people) who are unable to work and are therefore dependents. Changes in the age structure due to the demographic transition lower the 'dependency ratio', or the ratio of non-working age to working-age population, thus creating the potential for generating growth.

[A] What is Demographics Dividend? 1

1 Working of young people

2. More than those who work for working population

3 Older people get the benefit of work

4 Get benefits based on number

B] Represents the growing number of working people \_\_\_\_ ['Fill in the blank '] 1

[D] The category of dependent is covered by people below 15 years of age and above 64 years of age.  
[TRUE /FALSE]

OR

26 B Read the given passage and answer the questions that follows the passage 4

The regional pattern of low child sex ratios seems to support this argument.

It is striking that the lowest child sex ratios are found in the most prosperous regions of India. According to the Economic Survey 2018–19, Maharashtra, Punjab, Haryana, Chandigarh and Delhi are having high per capita income and the child sex ratio of these states is still low. So, the problem of selective abortions is not due to poverty or ignorance or lack of resources.

[A] In which state the female male ratio is the lowest

- Haryana
- Goa
- Punjab
- Bihar

[B] In which state is the per capita income high?

- Madhya Pradesh
- Maharashtra
- Uttar Pradesh
- Bihar

[C] The sex ratio to be the lowest in the most prosperous regions

27 A Read the given passage and answer the questions that follows the passage 4

Castes are not only unequal to each other in ritual terms, they are also supposed to be complementary and non-competing groups. In other words, each caste has its own place in the system which cannot be taken by any other caste. Since caste is also linked with occupation, the system functions as the social division of labour, except that, in principle, it allows no mobility.

[A] What is not the characteristic of caste

1

- 1 Determined by birth
- 2 linked to occupation
- 3 Strict Rules of Marriage
- 4 Freedom to go to another caste at your own discretion

[B] Castes were traditionally linked to occupation. [TRUE /FALSE] 1

[C] Caste is never a matter of \_\_\_\_\_ ['Fill in the blank'] 1

[D] Correct the Sentence  
Theoretically allows some kind of variability 1

OR

27 B Read the given passage and answer the questions that follows the passage 4

Many tribal concentration regions and states have also been experiencing the problem of heavy in-migration of non-tribals in response to the pressures of development. This threatens to disrupt and overwhelm tribal communities and cultures, besides accelerating the process of exploitation of tribals. The industrial areas of Jharkhand for example have suffered a dilution of the tribal share of population. But the most dramatic cases are probably in the North-East. A state like Tripura had the tribal share of its population halved within a single decade, reducing them to a minority. Similar pressure is being felt by Arunachal Pradesh.

[A] What was the main problem the tribes were facing 1  
1 Large number of non-tribes of immigration  
2 Job problem  
3 Food problem  
4 The problem of settling in cities

[B] The tribal population of which state has become a Christian by conversion to minority 1  
1 Orissa  
2 Mizoram  
3 Tripura  
4 Nagaland

[C] In the name of tribal development, their land and their forests have been taken away from tribal societies. TRUE / FASLE 1

[D] Large-scale desolation of forest areas has a profound impact on the \_\_\_\_\_ of tribal communities ['Fill the blanks'] 1

OR

What are the common features of 'disability' all over the world?

- 34 How does job recruitment take place through the contract system? 6
- 35 Read the given passage and answer the questions that follows the passage 6

Social movements often arise with the aim of bringing about changes on a public issue, such as ensuring the right of the tribal population to use the forests or the right of displaced people to settlement and compensation. Think of other issues that social movements have taken up in the past and present. While social movements seek to bring in social change, counter movements sometimes arise in defence of status quo.

- 1 What is counter movement? 2
- 2 Explain the difference between social change and social movement 4
