Section-A

- 1. Read the following and tick the correct answer of the given questions. (2×5=10)**

The Green Festival of Sundarpur

In the first week of July, the community of Sundarpur celebrated **Van Mahotsav**, the festival of forests. The local school children, the Residents' Welfare Association, and the community gardener, Bhola Kaka, came together for a plantation drive.

Bhola Kaka taught the children how to dig small pits and place saplings gently. The village Sarpanch (head) explained that trees are the "green lungs" of their community because they provide fresh air and shade for everyone. To make sure the saplings survived, the community decided to divide the work: the children would water the plants, the youth would build bamboo fences to protect them from goats, and the elders would monitor their growth. They realized that by planting trees today, they were securing a healthy future.

- i) Why did the community of Sundarpur call trees the "green lungs" of their neighborhood?**

- A) Because trees have lungs like humans.
- B) Because they make the community look green and colorful.
- C) Because they provide fresh air (oxygen) for the community to breathe.
- D) Because trees grow very tall and touch the sky.

ii). Van Mahotsav is celebrated in the first week of July. Based on your knowledge of seasons, why is this the best time for a community to plant trees? Because-

- A) it is very hot and plants need sunlight.
- B) the monsoon rains help the new saplings grow without much manual watering.
- C) July is the month of summer vacations.
- D) the ground is hard and dry in July.

iii). Bhola Kaka, the gardener, helped the children by teaching them how to plant correctly. What does this tell us about "Our Community"?

- A) Only gardeners should plant trees.
- B) Different people have different skills that they share to help the community.
- C) Children cannot do any work without elders.
- D) Gardeners are the only people who care about Van Mahotsav.

iv).The youth of the community decided to build bamboo fences. What was the "problem" they were trying to solve?

- A) To stop the children from playing in the park.
- B) To mark the boundary of the village.
- C) To protect the young saplings from being eaten by stray animals like goats.
- D) To make the park look like a forest.

v). The community divided the work of watering, fencing, and monitoring. This is an example of:

- A) People fighting with each other.
- B) Collective responsibility (Working together for a common goal).
- C) People being lazy and not doing all the work themselves.
- D) A school homework project.
