

Directorate of Education, GNCT of Delhi
Practice Paper
Annual EXAMINATION -Marking Scheme (2025-26)
Class – XI
Accountancy (Code: 055)

Time: 3 Hours

Maximum Marks: 80

General Instructions:

1. There are 31 questions in the question paper.
2. All questions are compulsory
3. Question nos. 1 to 20 will carry 1 mark each.
4. Question nos. 21-26 are short answer types–I and will carry 3 marks each.
5. Question nos. 27-29 are short answer type–II and will carry 4 marks each.
6. Question nos. 30-34 are long answer type questions and will carry 6 marks each.
7. There is no overall choice. However, an internal choice has been provided in 2 questions of one mark, 2 questions of three marks, 2 questions of four marks and 2 questions of six marks.

Q.No.	Questions	Marks
1	(d) Record the page number of the ledger account.	1
2.	(a) Chronological	1
3A	(c) Representative personal Account	1
3B	(b) Artificial Personal Account	
4A	(c) Cash deposited in bank	1
4B	(d) Interest on Drawing	
5	(d) Withdrawal slip	1
6	(a) Trading expenses	1
7	(b) There may be two sided errors in the book.	1
8	(d) A-3; B-4; C-1; D-2	1
9	a) Both Assertion (A) and Reason (R) are true and Reason (R) is the correct explanation of Assertion (A).	1
10A	(b) Rs. 48,000	1
10B	(a) 7.5% p.a

[illegible]

	4. Useful for Decision Making 5. Required by Law and Accounting Standards [One mark each for correct explanation of advantage of Accrual base]	3
24	1. Entity: The term Entity refers to the business organization that is considered separate from its owner. According to the Business Entity Concept, a business has its own identity, distinct from the personal affairs of its proprietor or partners. 2. Revenue: money generated from the sale of merchandise in which business deals. 3. Stock: Stock (also called Inventory) refers to the goods kept for sale in the ordinary course of business. Stock is the unsold goods that a business holds for sale. [One mark each for correct explanation]	3
25A	1. Financial Accounting: Financial Accounting is the branch of accounting that records, summarizes, and reports the financial transactions of a business for a particular period. It helps in preparing the final accounts — such as the Trading Account, Profit & Loss Account, and Balance Sheet. 2. Cost Accounting: Cost Accounting deals with the collection, classification, and analysis of costs incurred in the production of goods or services. Its main aim is to find out the cost per unit and control unnecessary expenses. 3. Management Accounting: Management Accounting involves the presentation of accounting information in such a way that it helps management in planning, decision-making, and controlling operations. Its main purpose is to assist management in making informed business decisions using data from financial and cost accounting. [One mark each for correct explanation]	
	OR	
25B	The Single Entry System is a simple and incomplete system of recording business transactions. It is usually followed by small businesses or sole proprietors who cannot afford to maintain a complete set of books. In this system of accounting, few accounts are prepared as per double entry system whereas all other accounts are ignored altogether. A few personal accounts such as those of debtors and creditors and a cash book is prepared in full detail and all rules are followed while preparing these accounts. All other transactions and accounts are ignored. Main features of Single Entry System:- 1. Suitable for small businesses due to its simplicity and easy maintenance. 2. Only cash and some personal accounts (like creditors and debtors) are maintained; other real and nominal accounts are ignored. 3. Lacks a formal structure or standard rules for preparing financial statements and determining profits, making accuracy and	

	completeness limited. 4. The financial position and true profit or loss of the business are only estimates, as comprehensive records are not maintained. [One mark for meaning and two marks for any of its features]	3

33	The explanation of the three main sub-disciplines within accounting:- 1. Financial Accounting Financial Accounting is that branch of accounting which records, summarizes, and reports the financial transactions of a business for a particular period. Its main purpose is to determine the profit or loss of a business during a specific period and to show the financial position of the business on a particular date. Its main features: • Prepares financial statements like the Trading Account, Profit and Loss Account, and Balance Sheet. • Information is mainly used by external users such as investors, creditors, government agencies, and shareholders. • It follows standardized principles and rules such as GAAP (Generally Accepted Accounting Principles) or Accounting Standards. 2. Management Accounting Management Accounting provides relevant financial and non-financial information to managers to help in planning, decision-making, and controlling business operations. Its objective is to assist the internal management in making informed decisions to improve efficiency and profitability. Its main features: • Focuses on internal use only. • Provides information in the form of budgets, forecasts, cost analyses, and performance reports.						

	- Not bound by any accounting standards or legal requirements — reports are prepared as per management's needs. 3. Cost Accounting Cost Accounting deals with the recording, classification, and analysis of costs incurred in the production of goods or services. Its aim is to determine the cost per unit of a product or service, control costs, and assist in setting selling prices. Its main features: - Helps in identifying areas of cost reduction and efficiency improvement. - Involves techniques such as standard costing, marginal costing, budgetary control, and variance analysis. - Mainly used by internal management for cost control and decision-making. [Two marks each for correct explanation]	6
