

Best Practices for Better Academic Results

ASMS SKV Mahipalpur

Coordination, Counselling & Attendance

Academic Coordinator

Appoint a dedicated Academic Coordinator for each class from VI to XII to oversee academic progress and maintain standards.

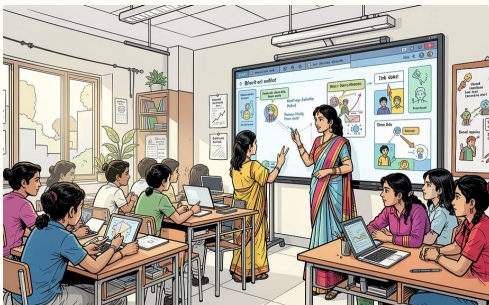

Counselling Sessions

Conduct regular counselling sessions for students and parents through the EVGC to address academic and personal concerns.

Attendance Monitoring

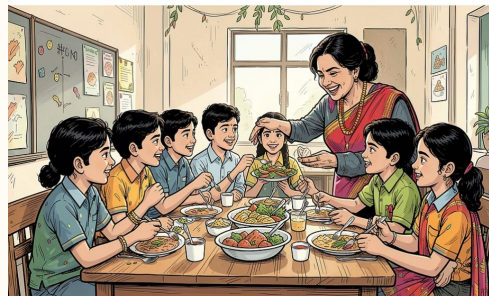

Monitor attendance daily. If a student is absent for **three consecutive days**, send letters to parents and involve SMC members for follow-up.

Effective Teaching-Learning & Student Well-being

Smart Teaching Practices

Ensure compulsory use of **NCERT textbooks** across all subjects. Integrate **Smart Boards and digital resources** to make lessons interactive and engaging for every learner.

Nourishment & Emotional Bonding

Encourage students to come to school **well-fed** and carry mini meals. Teachers are encouraged to share meals with students, fostering **emotional bonding** and a sense of belonging.

Continuous Assessment & Peer Support

Weekly Class Tests

Conduct short **5–10 mark tests** in every subject each week. Use results to identify learning gaps and strengthen conceptual understanding before they become larger issues.

Peer Mentoring

Pair regular students with those who are frequently absent. Subject teachers should **adopt and mentor** selected students, providing personalised academic guidance and support.

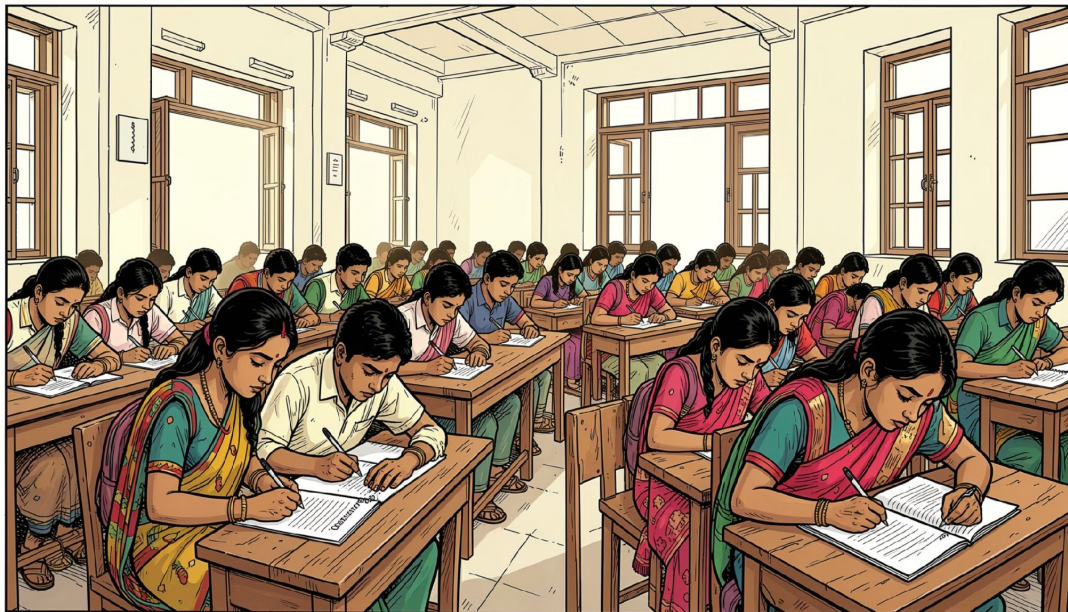

Centralized Practice Tests & Performance Benchmarks

Practice Tests

Conduct centralized tests based on **DOE/CBSE examination patterns** to build familiarity and improve writing skills under exam conditions.

Mid-Term Benchmark

Ensure every student secures at least **33% marks** in each subject by mid-term. Identify and address learning gaps well before annual examinations.

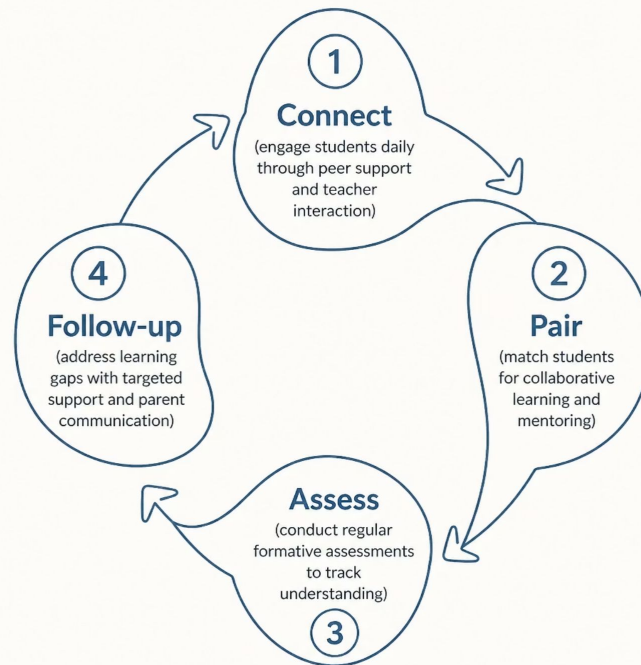

Daily NIPUN Support & the Four-Step Framework

Daily NIPUN Classes

Organize daily support classes in **Hindi, English, and Mathematics** to strengthen foundational learning outcomes and build proficiency at every level.

Connect – Pair – Assess – Follow-up

Maintain regular student engagement through peer pairing, continuous assessment, and systematic follow-up to ensure no learner is left behind.

Thank You

"Together, we can create a supportive and effective learning environment for better academic outcomes."
